

the media is supposed to report/analyse the news, not create spin. the sinclair group's action is so blatantly sinister, that it is hard to believe that i live in the united states. the chinese government, in 1989, when i was teaching in shanghai, did not hold a candle to the use of propaganda, the massaging and obfuscating of the truth, that lee atwater made the stock in trade of the republican party and its puppets. shame on you all for allowing this!
